PROFILE

Hi! I'm Firas — a dedicated software engineer with strong experience in Java (Spring Boot), Python automation/AI, and React/Next.js for building reliable, scalable and cleanly-architected applications.

I've worked on full systems including backend, frontend, automation tools, and AI-driven modules. I focus on writing clean, maintainable code that delivers real value.

Based in Bizerte, Tunisia, I'm currently pursuing my Engineer's degree at Université Tunis Carthage (2024-2026) while building practical experience through freelance work.

EDUCATION

Engineer's Degree

2024 - 2026 (Expected)

Université Tunis Carthage

Currently pursuing an Engineer's degree with focus on software engineering, AI, and full-stack development.

PROFESSIONAL EXPERIENCE

Software Engineer Student

September 2023 - Present

Faculté de Science de Bizerte

- Developing full-stack applications using Java Spring Boot, Python, and React/Next.js
- Building AI-driven modules and automation tools for various projects
- Working on machine learning and deep learning implementations

Freelance Software Engineer

2022 - Present

Upwork

- Building reliable, scalable web applications for international clients
- Specializing in Java, Python AI/automation, and React/Next.js development
- Delivering clean, maintainable code with focus on solution-oriented outcomes

TECHNICAL SKILLS

Backend Development	Java, Spring Boot, Python, REST API, JavaFX, Docker
Frontend Development	React, Next.js, JavaScript, TypeScript, HTML/CSS, Tailwind CSS
AI & Machine Learning	Machine Learning, Deep Learning, AI Agent Development, NLP, Automation, Data Analysis

PROJECTS

Sarcasm Detection — ML/NLP Project

Machine Learning & Natural Language Processing

Car Rental Website

Full-Stack Web Application

Urbanova — Custom Apparel Platform

Full-Stack E-commerce Solution

Driving School Management System

Complete management system for a driving school, built using Java, JavaFX, and MySQL

CERTIFICATIONS

- Statistical Thinking in Python (Part 1) (DataCamp)
- Statistical Thinking in Python (Part 2) (DataCamp)
- Case Studies in Statistical Thinking (DataCamp)
